Full-Stack Web Developer · Founder, Design over Atlanta

lynfeir@gmail.com | (470) 758-3549 | Dallas, GA | designoveratlanta.com | Open to remote

PROFESSIONAL SUMMARY

Self-taught full-stack developer with 5+ years building custom web applications, automations, and AI-powered tools for 150+ small businesses. Founder of Design over Atlanta, where I design, code, ship, and support production sites end-to-end — from React/Next.js front ends to Python back-end automations. Strong record of turning manual workflows into software that saves clients time and money, backed by a 100% client-retention rate.

TECHNICAL SKILLS

Languages	JavaScript / TypeScript, Python, HTML5, CSS, SQL, C++
Front End	React, Next.js, Tailwind CSS, responsive & accessible UI
Back End & Data	REST API design & integration, database design, web scraping, workflow automation
AI & Automation	LLM-powered tools, custom scripts, data pipelines, process automation
Platforms & Tools	Git, Vercel, WordPress, Shopify, SEO, Microsoft Excel (advanced)
Professional	Client relationship management, project scoping & delivery, technical support, B2B sales & lead generation

EXPERIENCE

Founder & Full-Stack Developer — Design over Atlanta 2020 – Present · Atlanta, GA / Remote

- Designed, built, and shipped 150+ custom websites and web apps for small businesses, hand-coding production sites in React/Next.js instead of templates.
- Built automated data-scraping and data-entry tools that cut clients' manual data work by up to 80%.
- Developed inventory-management and booking systems in Python and SQL, replacing manual processes and eliminating part-time admin costs for clients.
- Delivered most design work in 24–72 hours and full websites in 3–7 days through a demo-first process that lets clients approve before paying.
- Maintained a 100% client-retention rate by owning the full lifecycle — scoping, build, launch, hosting, and ongoing technical support.

Project & Estimating Support (Carpentry) — Summ Design Nov 2022 – Present · Canton, GA

- Built advanced Excel models for project calculations, material tracking, and cost analysis on custom-cabinetry jobs.
- Coordinated timelines and team communication to keep multi-stage builds on schedule.

Technical & Customer Support Experience Selected prior roles

- Provided desktop, mobile, and software troubleshooting support and trained junior team members on process and tooling.
- Ran B2B lead generation and sales outreach — prospecting, product demos, objection handling, and pipeline tracking — sharpening the client-facing skills now used to win and keep web-development clients.

ADDITIONAL EXPERIENCE

Customer-facing roles (2021–2025) showing reliability, safety, and service under pressure: Lifeguard — Bridgemill Athletic Club · Crew / Cashier — McDonald's · Delivery Driver — Domino's · Auto Detailing — Cherokee Auto Spa.

EDUCATION & CERTIFICATIONS

High School Diploma | CPR & First Aid Certified · Driver's License (Non-CDL Class C)
